

## Lifting stati. Aqualift F XL 200l Duo, SPF 1400-S3, Cast-iron gate valve

## **Article information**

Item no.: 11007

GTIN: 4026092056745

Price group: 50

## **Advantages**

- Different performance classes available
- Pressure sensor for reliable pneumatic level measurement
- Maximum operating reliability due to intelligent control unit (Duo)

## **Description**

The lifting station for faecal and faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) offers universal connection options and has a screwed access cover.

The station is controlled by a user-friendly control unit, which can be optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface (Comfort control unit).

Type of wastewater:	wastewater with sewage
Installation situation:	free-standing set-up

Installation situation:	free-standing set-up
w. ·	
Version:	
Type of system: Shut-off valve:	Twin pump station Shut-off valve made of cast iron
General characteristics:	
Colour: Standard:	black EN 12050-1
