

Lifting stati. Aqualift F XL 300l Mono, SPF 1500-S3, Gate valve

Article information

Item no.: 11029

GTIN: 4026092056967

Price group: 50

Advantages

- Different performance classes available
- Pressure sensor for reliable pneumatic level measurement
- Maximum operating reliability due to intelligent control unit (Duo)

Description

The lifting station for faecal and faecal-free wastewater is equipped with a submersible pump and a backflow preventer. The collection tank made of permanently resistant polymer (PE) offers universal connection options and has a screwed access cover.

The station is controlled by a user-friendly control unit, which can be optionally integrated in the building management system via a potential-free contact or alarm and collective fault messages can be output via a GSM interface (Comfort control unit).

Type of wastewater: wastewater with sewage Installation situation: free-standing set-up

W		rs	ın	n

Type of system: Single station

Shut-off valve: Shut-off valve made of polymer

General characteristics:

Colour: black Standard: EN 12050-1

Tank:

Tank volume: 300 l
Pressure pipe connection: horizontal

Pumping device:

Pump: SPF 1500

Number of pumps:

Operating mode: \$3 - 50 %

Impeller type: Multi-vane impeller

Length of mains cable for pump: 5 m

Control:
