Price group: 10

### Advantages

- Optional rat protection flap for additional safety
- Flexible installation, various covers available for floor slab installation
- Alternatively available as a module set

### Description

The backwater valve for wastewater without sewage is equipped with two mechanical flaps which close automatically in the event of backwater. One flap serves as an emergency closure to be closed by hand.

Thanks to the modular KESSEL system, existing systems can easily be converted to the StaufixControl backwater valve.
