

Backwater valve StaufixControl DN 200, exposed, Type 2 R

Article information

Item no.: 770200R GTIN: 4026092076866

Price group: 10

Advantages

- optical and acoustic warning message if backwater occurs
- Wireless backwater signal (EnOcean) can be integrated in the control system
- Flexible installation, various covers available for floor slab installation

Description

The backwater valve for wastewater without sewage is equipped with two mechanical flaps which close automatically in the event of backwater. One flap serves at the same time as an emergency closure to be closed by hand.

The battery-operated warning unit in the lockable cover generates an optical and acoustic warning if backwater occurs. Optionally, the warning message can control a remote signal generator in the living area via the EnOcean protocol or automatically disconnect a switched socket from the mains.

Type of wastewater: wastewater without sewage Installation situation: exposed drainage pipe

Version:

Stainless steel flap as rat protection: yes Emergency closure: yes

Delivery state: installation-ready

Backwater protection: Type 2 Number of mechanical backwater flaps: 2

General characteristics:

Nominal size (DN): 200 Outer diameter (OD): 200

Note on nominal size: Hydraulics correspond to DN 150

Colour: black Standard: EN 13564

Dimensions:

Length: 586 mm Width: 233 mm Height: 306 mm

Coverage features:

Type of cover: Lockable cover

Vertical drop between inlet and outlet: 8 mm

Control:

Type of level measurement: pneumatic
Level measurement instrument: Pressure switch

Cover locking: One-handed closure
