

Floor drains *Ferrofix* with pressure sealing flange

Matrix order system

EN 1253

Drain body

Floor drain *Ferrofix* with pressure sealing flange in stainless steel AISI 304, for connection to SML-pipe, with odour trap. Drainage capacity in l/sec with 20 mm / 10 mm threshold see table. Sealing water height 50 mm

- **Modular system**
see pages 254 – 257
- **Accessories**
see pages 275 – 278

Upper sections

Shallow bed upper section in ABS with included waterproofing membrane

Slotted cover
138 × 138 mm and rim in stainless steel AISI 304, anti-slip, class L 15, screwed

Art. no. 48 907

Anti-slip drain cover
138 × 138 mm and rim in stainless steel AISI 304, anti-slip, class L 15.

Art. no. 48 965

Upper section in ABS
Slotted cover
138 × 138 mm and rim in stainless steel AISI 304, anti-slip, class L 15, screwed

Art. no. 48 176

Upper section in stainless steel AISI 304
Anti-slip drain cover
138 × 138 mm in stainless steel AISI 304, class L 15 / M 125*
*On-site lining work required

Art. no. 54 914

Drain body with lateral outlet

Ø 78 Art. no. 54 200
